Mercury Forex Ideas on Saxo Bank's TradeMaker

- Mercury Forex AG employs a team of Currency Managers trading contrarian and trend following ideas. It is a Swiss registered, regulated and authorised currency trading company and a qualified Asset Manager.
- Specialized in high net worth individuals, institutional and corporate investors including proprietary trading.
- Mercury Forex AG trades a number of differing programs:
 - The Mercury Forex AG Discretionary Program: A contrarian discretionary spot FX program using comprehensive market data and market opinion including both fundamental and technical analysis processed by our in-house analysts.
 - The Mercury Forex AG Profile Trading Program: Based upon a strategy which exploits the presence of predictable behaviour in the world's currency markets, as published in various research articles.
 - The Mercury Forex AG Trending Program: The Mercury Forex AG Trending Program operates with a technically driven trend-following methodology.
- **Mercury Forex AG Trending Strategy (MFTS)** complements Mercury Forex AG existing analysis providing a very different approach which is proving to be highly successful.
- Benefits of Mercury Forex AG's Approach:
 - Capital Preservation,
 - Controlled Risk through Highly Disciplined Trading
 - Highly Liquid Investment,
 - Monthly Redemption, 7 days notice for investment and redemption,
 - Attractive, consistent returns
 - 14 year positive trading history,
 - Limited market risk,
 - An entirely transparent investment structure
 - Uncorrelated with equities or bonds,
 - Reports on-line,
 - Investors have real time access to performance.
